Bible Study Overview

- **Lesson 1** teaches us that little children can serve others.
- **Lesson 2** we learn that Jesus loves us unconditionally.
- **Lesson 3** reminds us that worship makes us joyful.

To the leader/teacher . . .

These guides were developed to:

- Introduce the lesson on Sabbath. The child then reviews and applies the principles studied with the help of their parents and Bible study guides during the week. In this way, the lessons learned in Sabbath School become a vital part of the child's growing faith experience. Memory verses, which are also learned in Sabbath School, are reviewed and reinforced during the following week, connected in the child's mind with the interesting activities they have already experienced.
- Focus the entire Sabbath School time on one message. These messages each relate to one of the four dynamics of a growing faith experience: grace (God loves me), worship (I love God), community (we love each other), and service (God loves you too).
- Reach each child in the way he or she learns best. By following the
 natural learning cycle on which these outlines were based, you will also
 connect students with the message for the week in a way that will capture
 each one's attention and imagination.

- Give children active learning experiences so they can more readily
 internalize the truths being presented. These experiences are followed by
 debriefing sessions in which you ask questions that lead the children to reflect on
 what they experienced, interpret the experience, and apply that information to
 their lives.
- **Involve the adult Sabbath School staff** in new and flexible ways. A very small Sabbath School can be managed by one adult. A larger Sabbath School can be managed by one leader/teacher with other adult volunteers to facilitate the small group interaction. This gives small group facilitators a maximum involvement with the students and their learning experience while requiring a minimum of preparation on the facilitator's part.

A creative alternative is to enlist leaders/teachers with different personal learning styles to lead different segments of the program.

(Note: The Getting Started section is the time-honored "business" of Sabbath School and may be used at any point during the lesson; however, it is recommended that you begin with Arrival Activities, even while some children are still arriving.)

To use this guide . . .

Try to follow the natural learning cycle outlined, but adapt activities as necessary to make the program work in your particular situation.

As you follow the learning sequence outlined in each lesson, you may want to adapt activities for use in your particular situation, and this may require a change in the need for materials.

Look ahead at the Program Overview for each month's program so you can be prepared with the materials suggested. Before the quarter begins, obtain regularly used supplies.

Basic Needs of Children*

All children have certain basic needs as well as needs that are specific to their age and stage of development.

The basic needs of children are . . .

Physical

- Food
- Warmth
- Shelter

Mental

 Power—to make choices and follow plans

Emotional

- A sense of belonging
- Approval and recognition
- Expressions of unconditional love and acceptance

- Freedom within defined boundaries
- Humor—a chance to laugh

Spiritual

- An all-knowing, loving, caring God
- Forgiveness of wrongs and a chance to start over
- Assurance of acceptance with God
- Experience in prayer, answers to prayer
- A chance to grow in grace and in the knowledge of God

Developmental Needs

In addition to the basic needs listed earlier, 2-year-olds need to experience:

- Power—to have a chance to manipulate objects, events, people
- Freedom—to make choices, to interact in learning situations, to sometimes move about at will
- Independence—to do some things unaided
- Security—to feel safe

The Beginner Child

In the Seventh-day Adventist Church the GraceLink curriculum for beginners targets children ages birth through 2 years. However, both the beginner and the kindergarten materials are adaptable to 3-year-olds.

A general rule applying to the beginner child is: seat children so their feet easily touch the ground. For children under 18 months use walkers (without wheels).

To better understand beginner children, ages birth through 2 years, it is helpful to note characteristics of their growth and development.

Physical

- Vary greatly in their physical development
- Are growing rapidly
- Tire easily
- Cannot sit still for long

Mental

- Have an attention span of only one or two minutes
- Learn by active involvement and imitation rather than by instruction
- Learn best one ministep at a time
- Focus attention on what they see and/or touch

Emotional

Are extremely egocentric—centered in themselves

- Fear separation from parents
- Cry easily—one crying child sets other children crying
- Express their needs by crying crying usually stops when the child's needs are met
- Become attached to adults who show love and acceptance of them

Spiritual

- Sense attitudes of respect, joy, and anticipation in connection with church, the Bible, and Jesus
- Can identify pictures of Jesus and lisp His name
- Will fold hands (briefly) for the blessing before meals and kneel (again briefly) for prayer
